

# Welcome!

NSM was founded by Said Sidaoui in 1962. Said was the first to introduce Middle Eastern Food to Australia in 1959 when he opened Melbourne's first Lebanese restaurants, "Lebanese House"...

The family's Arabian cuisine was received with an enthusiasm that inspired the creation of NSM. An emporium of Middle Eastern spices and nuts, and makers of Middle Eastern sweets and food products. It was at NSM's Lyle Street Premises that Australia's first "dry roasted" nuts were produced. This was a significant event because dry roasting brings out the nuts natural flavours and aroma. It still is one of the varied methods we use today to maintain a premium quality product.

While roasting and preparing of quality foods is our main business, NSM now specialises in all herbs, beans and dried fruits. As well as supplying restaurants, health food shops and food co-operatives, we also supply several major companies that export their own food products all over the world. NSM is a family business built on honesty and integrity. We have established a reputation for supplying competitively priced products, of high quality. As a family company, we also provide ourselves on the long-standing relationships we have developed over the years with our customers, many of whom are now our friends.

In order that trading begins with the best possible framework for mutual trust, please find below our trading terms:

## ***Deliveries:***

Because we value your commitment to us, we deliver free to you, anywhere in the metropolitan area, and provided your purchase exceeds \$150.00. In acknowledgment of the value of your purchasing needs, we can arrange any three possible pricing structures for you:

## ***Multiple Pricing Tiers:***

-Price A: Whole Unit. The least expensive alternative. We are a wholesale food outlet, and when we receive goods, they arrive on our premises in particular units. These units vary by product. For example Almond Raw comes to us in 12.5kg boxes, and provides your purchase in multiples of this unit; your purchase price will be minimized, in acknowledgement of your purchasing strategy.

-Price B: Less than the Whole Unit. We understand that whole unit purchases can be inconvenient to you. Therefore, we place no sanctions on the amount of you product you purchase. The handling and breaking of boxes means that the Price B tier is a fraction more expensive to you (40 cents per Kg).

-Price C: Packed To Your Specification: If your appropriately packed material, with individual conventions, and particular styles, we are happy to accommodate your needs. Your goods will be arranged for you to your specification.

### ***Return of goods:***

We understand that there will be times when you need to alter your purchases. This sometimes means you need more, sometimes less, and sometimes you may want to return your goods. In acknowledgement of your requirements, we are happy to arrange returns, or alterations to your orders. Because we deal in food products, a ***seven day grace*** period applies, and we ask that you are free to act within this period, which is built into all customer purchases. Regretfully, we cannot accept returns after seven days from invoice. We ask that you adhere to correct storage guidelines when it comes to your products. Remembering to keep dried fruit and/or nuts in a cool place well sealed.

We also invite you to engage us at any point and feel free to discuss any issue you have with any aspect of our trading relationship. Your constituency matters to us, and therefore, we look forward to speaking with you, and learning about your needs, in order that a long and fruitful relationship ensues.

Yours Sincerely

Omar Sidaoui  
Director  
NSM
